SHIPYARD : INTERNATIONAL DOCKYARD
LOCATION : SHANGHAI, CHINA
GEO COORDS: 31-15N 121-33E

KEY TO ANNOTATIONS

1. Unidentified surface vessel possibly under construction (visible LOA approx 80').
2. Two possible small OSS (LOA of each approx 165'). See annotation 7,
3. Two small surface vessels in line on building way. (LOA of possibly incomplete vessel at head of way is approximately 110 feet; second probably complete vessel is approximately 130 feet long.)
4. Three small surface vessels in line on building way (LOA of each approx 100').
5. Two unidentified surface vessels at head of building way (LOA of each approx 120'). These vessels are probably still under construction. They have a white or possibly unpainted appearance and may not yet be fitted with bows. Two unidentified smaller possible vessels are located toward the foot of this building way.
6. Unidentified vessel in graving dock (LOA approx 320'). A possible catwalk is visible; however "pinched" (probable) stern extremity does not appear to conform to rounded stern common to most oilers.
7. Unidentified vessel in graving dock (LOA approx 140').
8. Unidentified surface vessel (LOA approx 300').
9. Unidentified surface vessel (LOA approx 310').

NOTE: All measurements have been made by the CIA/IAD project analyst. They should not be construed as being mensuration data compiled by the NPIC Technical Intelligence Division.
